CORE COMPETENCIES

Integration for the Changing Combat Environment

BGI, LLC (BGI) is a unique and innovative veteran-owned business that supports a wide variety of defense and aerospace-related projects for U.S. and international customers. BGI is a for-profit organization and is comprised of experienced leaders, managers, analysts, engineers, scientists, instructors, domain experts, and training support personnel assigned to various company and customer work locations worldwide. BGI core competencies include Training Systems Development, Instruction and Courseware, and Advanced Programs. Many BGI employees have unique skills or backgrounds that provide significant value to the customer. BGI maintains a Top-Secret Facility Clearance Level and is ISO 9001:2015-certified.

BGI has been meeting challenges and exceeding customer expectations since 1994. We have built a reputation for, and excellence around, three primary core competencies.

Training Systems Development

BGI has evolved the traditional role of the consultant Subject Matter Expert into a key member of the system engineering and test team. Today, our Domain Experts, Instructors, Engineers and Program Managers support highly complex military simulation systems throughout the training system life cycle. We provide services supporting all phases of training systems design, development, integration, test, delivery, and sustainment. We augment our full-time staff members with current and qualified military operators and instructors to support surge operations domestically and world-wide. We are often called upon to serve in an “instruct the instructor” role.

Instruction and Courseware

In the early 2000 s, BGI began to pursue Contract Aircrew Training and Courseware Development (CAT/CWD) contracts in prime and subcontractor roles. Today we have established prime contractor past performance in academic, simulator and in-flight training as well as managing improvements in all levels of interactive courseware for multiple aircraft platforms. Our Flight Training experience extends to Live Virtual Constructive training, including constructive and pilot-in-the-loop adversary services, and large force exercise support. BGI continues to execute several CAT/CWD contracts through our strategic partners and Mentor Protégé Veteran Owned Small Business Joint Venture.

BGI is currently providing Flight Training services to government customers such as:

- Air Force, Navy, and Marine Corps F-35 Pilots
- Air Force MQ-1/9 Pilots and Sensor Operators
- Air Force A-10C Pilots
- Air Force EC-130H Flight Deck and Mission Crew Personnel
- Air Force B-1B Pilot and Mission Crew Personnel
- Air Force Weapons Instructor Course (WIC)
- Air Force, Air National Guard and Air Force Reserve F-16C Pilots

***Mission:** Integrate operational, technical, and engineering expertise to enhance customer capability and add value to aviation, training, defense, and national security programs.*

Advanced Programs

In the mid-2000s, BGI saw an opportunity to branch out from our traditional role of support for major system integrators by pursuing technical contracts of our own. This strategic decision led to the expansion of BGI's team to include talented systems architects, systems and software engineers, and data scientists. Over the years we have continuously performed on numerous research and development, software development, and data analytics projects supported by a dedicated BGI-owned facility in Akron, Ohio. Our seasoned technical staff and mature cyber security infrastructure supports advanced programs that include data analytics, human performance assessment, digital engineering, modeling, simulation, autonomy, and software engineering. We specialize in maximizing the benefits of data for discovery, and transitioning algorithms into enterprise systems in a DevSecOps environment. BGI software engineering emphasizes a wide spectrum of programming languages and host platforms, flexible data structures, and scalable solutions that integrate well with other components within enterprise frameworks.

CUSTOMER INFORMATION

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SINs	SIN Title
611512	611512 Flight Training

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. See Pages 8-11.

1c. See Pages 8-11 for proposed hourly rates, description of all corresponding commercial job titles, experience, functional responsibility, and education for those types of employees or subcontractors who will be performing services.

2. Maximum order:

SINs	Maximum Order
611512	\$1,000,000

3. Minimum order: \$100

4. Geographic coverage (delivery area). Worldwide

5. Point(s) of production (city, county, and State or foreign country). 500 Wolf Ledges Pkwy, Akron, OH 44311-1080

6. Discount from list prices or statement of net price. Government Net Prices (discounts already deducted.)

7. Quantity discounts. Not Applicable

8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. Net 30

9. Foreign items (list items by country of origin). Not Applicable

10a. Time of delivery. Contact Contractor or To Be Determined at the Task Order level

10b. Expedited Delivery. Contact Contractor

10c. Overnight and 2-day delivery. Not Applicable

Mission: Integrate operational, technical, and engineering expertise to enhance customer capability and add value to aviation, training, defense, and national security programs.
